EXPERIENCE

1StopMandi 🚧 (Govt. of Bihar–funded Startup)

May 2025 – Jul 2025

Full Stack Development Intern

Remote

- Architected **backend infrastructure** using **Node.js, Express, and MongoDB**, delivering **20+** secure REST APIs for core marketplace operations, enhancing backend stability by **40%**.
- Integrated services like **Razorpay** and **Cloudinary** , boosting transaction reliability and image handling speed by **35%** while reducing manual review time by **20%**.
- Partnered with the frontend team to link **React** interfaces with APIs, cutting UI latency by **25%**.

PROJECTS

CheckPoint 📈

Mar 2025 – Present

Node.js, Express.js, MongoDB, React.js, REST APIs, JWT, Cloudinary, Git, Tailwind CSS

- Developed a full-stack **Letterboxd-style gaming platform** enabling users to **log, rate, review, and wishlist games**, elevating engagement and session time by **70%**.
- Implemented an interactive **game explorer dashboard** aggregating global **player reviews, completion times, pricing, and platform availability**, enhancing discovery efficiency by **40%**.
- Constructed **personalized user dashboards** with real-time synchronization for **reviews, favorites, and activities**, improving interaction by **25%**.
- Formulated scalable **REST APIs** using **MongoDB aggregation**, JWT authentication, and **Cloudinary integration**, trimming backend latency by **30%** and onboarding by **50%**.

LiveConnect 📱

July 2025 – Sep 2025

React.js, TailwindCSS, DaisyUI, Zustand, Node.js, Express.js, MongoDB, Socket.IO, JWT, bcrypt

- Devised a **real-time messaging system** powered by **Socket.IO** for instant updates, presence tracking, and multi-room communication, minimizing latency by **40%**.
- Structured a modular **backend service layer** with **Express.js** and **Node.js**, ensuring consistent API behavior and simplifying frontend data flow.
- Designed a **responsive interface** with **TailwindCSS & DaisyUI**, boosting engagement and cross-device usability by **35%**.
- Enabled **media sharing support**, allowing users to exchange images alongside text for richer conversations.
- Adopted **Zustand** for state management, reducing redundant re-renders and improving app responsiveness by **25%**.
- Integrated **Cloudinary** for profile image uploads and updates, elevating personalization and user experience.

ACHIEVEMENTS

- **Knight** on **LeetCode** with a **contest rating of 1850+**, ranking in the top **6% globally**.
- **Pupil** on **Codeforces**, with **500+ problems** solved across competitive programming platforms.
- Reached **Semi-Finale** of Flipkart GRiD 7.0 Software Development Challenge 🏆
- Completed the **Accenture Developer & Technology Simulation** 🏆 (Forage)
- Earned **Cisco's Cybersecurity Certification** 🏆, gaining hands-on exposure to **API integration, agile methodologies, and network safety**.
- Contributed to open-source projects ,refining documentation and issue-tracking workflows.
- Chosen for the **Smart India Hackathon** (2024, 2025) for creating a **chatbot-based ticketing system** and an **IDMS of Chemical & Petrochemical Sector**.
- Secured **3rd place** in college hackathon for a **Bihar Tourism Website** promoting regional culture and travel.
